

Shipping Instructions

Wrap all items individually in 2" layer of bubble wrap

Power down and separately wrap and tape each included item to prevent damage during transit.

Package into appropriately sized box with sufficient crush space

All included items must be separated from edge-of-box by at least 3" on all sides and packed tightly with packing paper or bubble-wrap. Once wrapped, device(s) and accessories must be packed tightly into the center of box.

iMac shipping instructions:

With Original Box: Properly place all foam inserts around iMac to ensure device is suspended and not resting on bottom of box. Individually wrap loose accessories in 2" of bubble wrap. Affix label and ship directly in this box.

Without Original Box: Carefully wrap entire iMac in at least 2" of bubble wrap. **Double wrap all corners, edges, and stand.** Place in center of box with 3" of crush space (packing paper or bubble wrap) around all sides of device. **Failure to use sufficient cushion will result in major physical damage. Give these instructions to FedEx Office.**
